How were you informed about the work that needed to be done?

On a scale from 1-5, 5 being great, how would you describe your experience as a sawyer?

What can the Trail Conference do to make your experience more enjoyable?

We're wondering how we can better report what work has been completed by our sawyers and want to know if you would be willing to fill out a report for us each time you go out to cut?

Last but certainly not least, is there anything else about the sawyer program that you would like for me to relay to the staff?

Is there anything else you would like to discuss?
